

Patient Rights

The hospital is committed to respecting the following rights of patients in regard to their medical care.

- Patients have the right to receive medical care that respects the sanctity of life and their individual character.**
- Patients have equal rights to safe, secure, high-quality medical care.**
- Patients have the right to know about their illness and their treatment, to have this explained in an understandable way, and to express their own wishes and opinions. If patients do not wish to know the name of their medical condition or its prognosis, we will respect their wishes.**
- Patients have the right to choose or refuse the medical care they receive.**
- Patients have the right to seek a second opinion from another doctor or doctors at another medical institution at any stage of their medical treatment, if they so desire.**
- Personal medical information will be strictly protected and kept confidential.**
